▼ Virtual Machine Details

State: Powered off
Configuration file: C:\Users\SHAIK SHANU\OneDrive\Documents\Virtual Machines\8 saifulla2\8 saifulla2.vmx
Hardware compatibility: Workstation 17.x virtual machine
Primary IP address: Network information is not available

is done & vm is created.

Experiment 8:-

Aim: To create virtual hard disk & allocate the storage using vmware workstation.

Requirement: vmware workstation.

Procedure:-

* Install vmware software

* start to create a new virtual machine

* configure the required fields

* choose to create a new virtual hard disk

* Give the hard disk with 15GB to make an easy access.

* The create a VM & bootup the system

* If any changes, the system should be powered off

Result:

creating on VM with new VM & successfully completed.
